Hand polished in smart firestone colours. Try them, join the "IN" Groups with. . . MAGNETONE - the Guitar with magnetic attraction for modern musicians.

* All models fitted with Adjustable Neck Aligning Rod. Finished in new modern plastic coatings, hand rubbed to a gloss finish.

MODEL T.B. 36/6

Beautifully balanced guitar made of finest acoustic woods. Hollow body 18" long, 15" wide, 1 1/2" thin. 21 frets, scale 24 3/4". Twin Pickups. Volume and Tone controls. Quick switch change from rhythm to lead. Smooth action neck and feather touch tremolo arm. All metal bridge. Also available with 3 Pickups.

MODEL T.B. 36/12

The style and size Pickups, etc. and general appearance as the 36/6 model, but designed for 12 strings without the need for a wide neck. Scale 24 3/4". As easy to play as a standard 6 string guitar. The 36/12 is fitted with a standard tailpiece, as it is not recommended to use a tremolo arm on this 12 string lead guitar. Also available with 3 Pickups.

MODEL D.B. 37.

A superior precision built swell back and front guitar with fine acoustic - electric qualities, featuring a body size 19" long, 16" wide, 2 3/4" deep. Twin Pickups. Volume and Tone controls and quick change rhythm to lead switch. Slim low action neck and frets. Scale 24 3/4".

MODEL M.B. 33.

High precision Bass Guitar with fine acoustic sounds. Body size 18" long, 15" wide, 1 1/2" thin. Extra slim neck. Scale 30 1/4". 2 Pickups. Volume and Tone controls and sound change switch. All metal anchor bridge. Enclosed machines.

* All Models supplied in attractive, shaped cases.
